

Tuality Team Always 'Goes for the Gold'

Tuality Healthcare

Building a healthier community.

Even though it was a couple months ago, some amazing displays of spirited athleticism from the Winter Olympics remain strong in our memories. But this level of performance is not exclusive to the world of team and individual sports. Every day within Tuality Healthcare, examples of determination and achievement take place that are on par with the finest Olympic athletes.

This dedication to the fundamentals of care and customer service, along with a commitment to reach ever higher, are

what make this year's Olympic theme so appropriate for Tuality's Employee Appreciation Week.

We want to express our gratitude to those listed here who have reached some remarkable milestones of service to Tuality, our patients, and our community.

This appreciation also extends to every member of our "Tuality community," for bringing your skills, compassion and commitment to your job every day in service to others at our hospitals and other facilities throughout western Washington County. Thank you.

Medical staff and employees — 'years of service' milestones

Forrest Bump, M.D.
Honorary Medical Staff
60 Years

William Harrison, M.D.
Honorary Medical Staff
55 Years

Patti Rose
