

Scott Armstrong, M.D., FAPA, FAPM, who is board-certified in both psychiatry and psychosomatic medicine, earned his medical degree at Oregon Health & Science University in 1984. He is a fellow of both the American

Psychiatric Association and the Academy of Psychosomatic Medicine. Dr. Armstrong served his residency training in general adult psychiatry at Tripler Army Medical Center in Honolulu, then went on to complete further post-graduate training in “consultation-liaison” psychiatry—which is psychiatry for people who are medically ill—at Walter Reed Army Medical Center in Washington, D.C. He is an international authority on the subject of drug-drug interactions, having co-authored or contributed to three books on the topic, two of which were the best selling books at the annual meeting of the American Psychiatric Association for three years. In 2004, he won the Academy of Psychosomatic Medicine’s Dorfman Journal Paper Award for best research review articles. During his free time, he enjoys spending time with his family and church, bicycling, singing, and playing guitar. Dr. Armstrong joined Tuality’s Center for Geriatric Psychiatry in 2001.
